Monash University Bachelor of Business and Commerce	2014 – 2018 CGPA: 3.52 / 4.00
--	----------------------------------

Experience

Tes Global | *Sales Development Representative* | London (Remote) | Jan 2024 – Sep 2025

- Analysed 47 EMEA opportunities across 32 countries in Power BI, identifying top-performing products, priority markets and higher-potential MENA segments for FY26 planning.
- Maintained Salesforce CRM data across EMEA pipeline activity, tracking opportunity stages, lead sources and outreach effectiveness to inform pipeline reviews and commercial prioritisation.
- Mapped customer, regional and school-fit data across 19 Middle East and Africa countries, informing AssetWhere launch planning across 8 countries and shaping initial acquisition strategy.
- Ranked #1 for FY25 by Opportunity Qualified metrics, generating £400k in pipeline value through data-driven targeting and iterative outreach analysis.

King Abdullah University of Science and Technology | *Systems Trainer* | Jeddah, Saudi Arabia | Jun 2023 – Dec 2023

- Produced 5 Power BI dashboards using SAP Maximo and Facilities Management data, improving reporting visibility across 3 departments for asset lifecycle, work orders, maintenance, compliance and operational performance.
- Delivered role-based SAP Maximo onboarding across 6 workflows, covering asset management, work order processing, maintenance, compliance, customer requests and system adoption.
- Engaged customers, internal teams and management to clarify reporting and training needs, translating stakeholder requirements into dashboards, user guidance and adoption materials.

Next Order & BetterSource | *Sales Development Representative* | Islamabad, Pakistan | Feb 2022 – Mar 2023

- Managed CRM tracking, lead qualification and competitor analysis across 2 international markets, Australia and the UK, contributing to cloud POS and telecoms client acquisition.
- Collaborated with sales, client-facing and product teams to understand operational requirements and position technology solutions across 2 B2B sectors: cloud POS and telecoms.

Edge Services & Solutions | *Associate Client Relations* | Islamabad, Pakistan | Sep 2021 – May 2022

- Conducted a consultative gap analysis for The Dollar Agency, identifying workflow inefficiencies and recommending service improvements that supported smoother day-to-day client operations.
- Reduced client lead time by approximately 15% by analysing recurring process issues, improving onboarding documentation and standardising client handling workflows.

Accor Group | *Group Sales Coordinator* | Dubai, UAE | Mar 2019 – Nov 2020

- Informed pricing and sales strategy across a 1,100+ room hotel cluster through competitor benchmarking, demand trend analysis and cross-departmental performance reporting.
- Compiled client metrics, sales reports and account performance summaries to identify revenue opportunities across rooms, meetings, events and outdoor catering.
- Coordinated commercial and operational activity across 10 conference and meeting spaces plus outdoor catering, working with revenue, reservations, marketing and operations teams.

Analytics projects

SQL Data Warehouse & Sales Analytics (*SQL Server, T-SQL, ETL, Star Schema*) [View on GitHub](#)

- Implemented a Bronze/Silver/Gold SQL Server data warehouse integrating CRM and ERP sales data; created fact/dimension structures and reusable T-SQL views for revenue, product and customer analysis.

Sales Performance BI Dashboard (*Power BI, DAX, KPI Reporting*) [View on GitHub](#)

- Created an executive Power BI dashboard tracking 5 core KPIs: revenue, profit, orders, returns and regional performance; transformed raw sales data into decision-ready insight through DAX measures and storytelling techniques.

MindWise: Decision-Focused Analytics (Live Client Brief) (*Python, PuLP, scikit-learn*)

- Selected as 1 of 5 MSc students for a live mental health charity brief; developed a predictive and optimisation workflow testing 20%, 40% and 60% capacity scenarios against outcome quality, regret and fairness constraints.

Airline Customer Recommendation Classifier (*Python, scikit-learn, NLP, TF-IDF*) [View on GitHub](#)

- Power BI & Reporting: Developed dashboards using Salesforce CRM, SAP Maximo and sales data to improve pipeline, operational and performance reporting.

Skills

Power BI & Reporting: Created dashboards using Salesforce CRM, SAP Maximo and sales data to improve pipeline, operational and performance reporting.

SQL & Data Modelling: Modelled a Bronze/Silver/Gold SQL Server warehouse using CRM and ERP data, creating fact/dimension models and reusable T-SQL views.

Python & Analytics: Developed predictive modelling, classification and optimisation projects using Python, scikit-learn and PuLP.

Commercial Analysis: Analysed CRM, pipeline, competitor and market data to guide segmentation, forecasting, pricing and revenue-related decisions.

Stakeholder Communication: Presented findings, trained users and translated technical outputs into clear recommendations for commercial and operational teams.

Achievements & Leadership

- Top Performing SDR FY25 at Tes Global, ranked #1 by Opportunity Qualified metrics after generating £400k in qualified pipeline through data-led targeting, CRM discipline and iterative outreach analysis.
- Selected from the MSc Business Analytics programme for a live MindWise dissertation project with a major Northern Ireland mental health charity, after delivering a 40-minute feasibility presentation that secured approval for the study.
- Winner, QBS Data for Good Hackathon 2026, helping coordinate a 6-member team split across current-state and predictive analysis workstreams, ensuring both outputs connected into one clear recommendation on GP practice pressure in Northern Ireland.
- Team Leader, Unilever Hair Care Marketing Challenge, leading a student team to 1st place across 23 teams by coordinating market research, segmentation, campaign positioning and final pitch delivery.
- Participant, QBS Data Duo Mentoring Programme, selected for industry mentoring to develop analytics career direction, UK market understanding and employer-facing portfolio feedback.

Certifications

- Alteryx Designer Core (Alteryx)
- Microsoft Power BI Desktop for Business Intelligence (Maven Analytics)
- SQL for Data Science (University of California, Davis)
- Data Analyst with Python (DataCamp)
- Data Analyst with R (DataCamp)
- Tableau Fundamentals (DataCamp)
- GDPR & Data Privacy Fundamentals (DataCamp)
