PROFILE

Data Analyst completing an MSc in Business Analytics at Queen's University Belfast, with five years of commercial experience across SaaS, EdTech and hospitality. Skilled in SQL, Power BI, Python, R and Alteryx, with a track record of turning CRM, pipeline and operational data into insight that drives decisions. Comfortable presenting findings to senior stakeholders and working across technical and commercial teams.

EXPERIENCE

Education Horizons / Tes Global — EdTech SaaS, London, UK | *Sales Development Representative* | Remote | Jan 2024 – Sep 2025

- Analysed EMEA pipeline data in Power BI to assess regional sales performance, forecast FY26 trends and identify higher-potential market segments across MENA.
- Managed and maintained Salesforce CRM data, tracking opportunity stages, lead sources and outreach effectiveness to support pipeline reviews and commercial prioritisation.
- Mapped market opportunities using customer, regional and school-fit data to support the Middle East launch of AssetWhere and shape initial acquisition strategy.
- Ranked #1 for FY25 by Opportunity Qualified metrics, generating £400k in pipeline value, by applying data-driven targeting and iterative outreach analysis.

King Abdullah University of Science and Technology | *Systems Trainer* | Jeddah, Saudi Arabia | Jun 2023 – Dec 2023

- Developed Power BI dashboards using SAP Maximo and FM data to support cross-departmental reporting on asset lifecycle, work orders and compliance workflows.
- Designed and delivered role-based onboarding programmes for SAP Maximo users, covering asset management, work order processing, compliance requirements and system adoption.
- Worked with technology and operations stakeholders to clarify reporting and training needs, translating them into structured dashboards, user guidance and adoption materials.

Next Order & BetterSource | *Sales Development Representative / BDE* | Islamabad, Pakistan | Feb 2022 – Mar 2023

- Managed CRM data tracking, lead qualification and competitor analysis across cloud POS and telecoms clients in Australian and UK markets.
- Collaborated with client-facing and product teams to understand operational requirements and position suitable technology solutions based on business size, workflow needs and client priorities.

Edge Services & Solutions | *Associate Client Relations* | Islamabad, Pakistan | Sep 2021 – May 2022

- Analysed client data and workflow patterns to identify service inefficiencies, producing process documentation and onboarding frameworks that standardised operations and improved turnaround consistency.
- Worked with cross-functional teams to understand recurring service issues, clarify process gaps and support practical improvements to client handling and internal knowledge sharing.

Accor S.A. — Hotel Cluster | *Group Sales Coordinator* | Dubai, UAE | Mar 2019 – Nov 2020

- Supported pricing and sales strategy through competitor benchmarking, trend analysis and cross-departmental performance reporting.
- Compiled client metrics, sales reports and account performance summaries to identify revenue opportunities and support commercial planning across the hotel cluster.
- Supported operational coordination across a hotel cluster of 1,100+ rooms, 10 conference and meeting spaces and outdoor catering, working across revenue, reservations, marketing and operations teams.

ANALYTICS PROJECTS

SQL Data Warehouse & Sales Analytics (*SQL Server, T-SQL, ETL, Star Schema*) [View on GitHub](#)

- Built a Bronze / Silver / Gold SQL Server data warehouse integrating CRM and ERP sales data; created fact / dimension structures and reusable T-SQL views for revenue, product and customer analysis.

Sales Performance BI Dashboard (*Power BI, DAX, KPI Reporting*) [View on GitHub](#)

- Built an executive Power BI dashboard tracking revenue, profit, orders, returns and regional performance; used DAX measures and storytelling techniques to turn raw sales data into decision-ready insight.

MindWise: Decision-Focused Analytics (Live Client Brief) (*Python, PuLP, scikit-learn*)

- Selected as one of five MSc students for a live mental health charity brief; translated a resource-allocation problem into a predictive and optimisation workflow balancing outcome quality, regret and fairness constraints

Airline Customer Recommendation Classifier *(Python, scikit-learn, NLP, TF-IDF)* [View on GitHub](#)

- Built a sentiment-based classification pipeline predicting service recommendations; best model achieved 96.3% accuracy and 98.8% ROC-AUC on held-out test data.

SKILLS

- **Data & BI:** SQL (SQL Server, T-SQL), Power BI, DAX, data visualisation, dashboard development, KPI reporting, ETL, data cleaning
- **Analytics:** Python, R, predictive modelling, NLP, classification, segmentation, forecasting, linear optimisation (PuLP)
- **Commercial:** Salesforce CRM, pipeline reporting, market segmentation, competitor benchmarking, sales performance tracking
- **Tools:** Alteryx Designer, Excel, Tableau, SAP Maximo, GitHub, Microsoft Azure
- **Soft Skills:** Stakeholder communication, requirements clarification, cross-functional collaboration, decision support

EDUCATION

MSc Business Analytics | Queen's University Belfast | 2025–2026

- Dissertation: Decision-focused analytics for mental health service allocation, linking predictive modelling with optimisation and fairness-aware constraints.
- Winner: QBS Data for Good Hackathon 2026, focused on GP practice pressure across Northern Ireland.

MSc International Business | Monash University | 2018–2019

Bachelor of Business and Commerce | Monash University | 2014–2018

- Winner: Unilever Hair Care Marketing Challenge, 1st place across 23 teams.

CERTIFICATIONS

- Alteryx Designer Core (Alteryx)
- Microsoft Power BI Desktop for Business Intelligence (Maven Analytics)
- SQL for Data Science (University of California, Davis)
- Data Analyst with Python (DataCamp)
- Data Analyst with R (DataCamp)
- Tableau Fundamentals (DataCamp)
- GDPR & Data Privacy Fundamentals (DataCamp)
